Technical Support and E-Warranty Certificate
www.vevor.com/support

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

Symbol	Symbol Description
	Warning: To reduce the risk of injury, the user must read the instructions manual carefully.
	This symbol, placed before a safety comment, indicates a kind of precaution, warning, or danger. Ignoring this warning may lead to an accident. To reduce the risk of injury, fire, or electrocution, please always follow the recommendation shown below.
	Indoor Use Only
	<p>CORRECT DISPOSAL:</p> <p>This product is subject to the provision of European Directive 2012/ 19/EC. The symbol showing a wheeled bin crossed through indicates that the product requires separate refuse collection in the European Union. This applies to the product and all accessories marked with this symbol. Products marked as such may not be discarded with normal domestic waste, but must be taken to a collection point for recycling electrical and electronic devices.</p>

IMPORTANT SAFEGUARDS

Before using, please read this manual and always comply with basic precautions when using it. Once the product is used, you acknowledge that you have carefully read and accepted the following safety instructions.

Warning: The following instructions apply to the equipment, all tools and accessories, and any power and supply devices that may be used.

01. Please install and use this equipment in strict accordance with the instructions, and observe basic safety and common sense when using it.

02. If the equipment does not work properly due to dropping, hitting, damaging, placing outdoors or water, please do not use it and contact after-sales service.

03. Please do not dismantle the equipment, please contact the after-sales service for handling.
04. Do not place the equipment outdoors or on wet ground, or allow the equipment to come into contact with or enter water,
The equipment is not allowed to soak in water or rinse directly.
05. Unplug the power supply when not in use for a long period of time, maintenance or repair.
06. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
07. Ensure that the power cable is properly positioned so that it cannot be stepped on, tripped over or damaged or pressed.
08. It is forbidden to stack objects on the top and to keep the inside and outside clean and dry.
09. This equipment must use the rated voltage/frequency in accordance with the requirements.
10. Only use matching or compliant power cords. Otherwise it may cause serious consequences.
11. Please do not place this equipment near heat sources or other high temperature environments.
12. Please do not disassemble, modify or repair this equipment by yourself, otherwise you will lose all warranty and service rights.
13. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
14. For additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30 mA is advisable in the electrical circuit supplying . Ask your installer for advice.
15. In order to better enjoy the after-sales service we recommend that keep the outer packaging for more than 7 days.
16. If you have any questions during use, please contact the after-sales service in time.

17. **WARNING:** Do not use this appliance near bathtubs, showers, basins or other vessels containing water.

INDOOR USE ONLY, This product is **HOUSHOLD USE ONLY.**

SAVE THESE INSTRUCTIONS

FCC INFORMATION

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment!

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) This product may cause harmful interference.
- 2) This product must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this product not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

Note: This product has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This product generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the product off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the distance between the product and receiver.
- Connect the product to an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for assistance.

PACKING LIST

Main engine		1	
Telescopic tube		2

INSTALLATION DIAGRAM

1: Installation of the machine bottom support bracket

2: Installation of mobile pulleys

2-1

2-2

3: Connect and secure the tube to the main unit

3-1

3-2

4: Place the main unit into the lower support bracket, adjust the desired height and secure it with two screws.

4-1

4-2

5: Installation of handles on top of the machine

PANEL INTRODUCTION

Switch:power switch

LED:Work indicator light

Breaker disconnecting switch:Overcurrent protection

OPERATION PROCESS

- 1、TURN ON POWER SWITCH
- 2、Open Breaker disconnecting switch
- 3、WORKING
- 4、TURN OFF POWER

ABNORMAL OPERATION INSTRUCTIONS

problems	causes	solutions
Heater does not heat up	Poor connection between heating tube and ceramic terminal	Re-insert the heater tube end screw position onto the ceramic terminal block and secure it
Machine does not work, LED work indicator does not light up	Poor contact or detachment of internal wires	Turn off the power and unplug the socket. Refasten the wires.
Turning the machine on trips the circuit breaker.	Check the maximum current value supported by the socket	Replace the socket, current needs to be above 16A
