

We offer you this stair climber cart, as an effective stair-climbing tool, it is designed to reduce efforts going up and down stairs. Constructed of Q235 steel frame, PU material big wheels, it is rustless and suitable for any environment. This cart provides large support for you and significantly reduce efforts and strain required to transport loads. Our stair climber also features three-wheel design and two backup casters which may effectively help the cart "walk" over curbs, stairs and obstacles. With collapsible structure, it is easy to carry.
